ShahGraphics

Production Artwork & Capabilities

Your production artwork partner
for sticker printing companies.

Original demonstration artwork

FAST. ACCURATE. PRINT-READY.

01 / CAPACITY

Built for daily production

A dedicated team supporting recurring sticker artwork workloads.

50–60

Artworks per day

Expert

Experienced production designers

15 min

Average processing time

Figures supplied by ShahGraphics. Processing time is an average, not a guaranteed delivery time. Actual capacity varies with artwork complexity.

02 / CONTOUR CUTTING

Custom shapes, clean boundaries

Illustrative examples of contour preparation for different sticker silhouettes.

Rounded rectangle

Circular profile

Custom shield

All artwork shown is fictional demonstration material; not a client order.

03 / BLEED & BORDERS

Prepare artwork for trimming

Conceptual separation of artwork, cut path and internal safety boundary.

Cut path

Defines the intended trim boundary.

Safety boundary

Keeps key content away from the edge.

Bleed area

Extends artwork beyond the trim.

Schematic only. Actual offsets and spot-color conventions follow printer specifications.

04 / EASY-PEEL

Easy-peel tab preparation

A conceptual backing extension provides a place to grip the liner.

Production considerations

Position the tab away from critical artwork. Maintain a clean sticker boundary and follow the printer’s liner and cutting requirements.

Illustrative backing and cut boundary; not a machine-ready file.

05 / MATERIAL VARIANTS

One artwork, multiple finishes

Proof preparation can accommodate different material and finish requirements.

Gloss

Matte

Clear

Finish labels are illustrative; actual material appearance and white ink depend on printer specifications.

06 / WORKFLOW

From incoming artwork to proof

A proposed workflow for consistent production support.

01

Review

Check size and job requirements.

02

Prepare

Set artwork, contours and bleed.

03

Check

Review boundaries and legibility.

04

Deliver

Provide proof or production file as agreed.

Workflow and file specifications are agreed with each printing partner.

07 / PARTNERSHIP

Keep your production moving

Reliable artwork support for sticker printing companies.

Let’s work on your next artwork.

Try one production artwork at no charge.
